## NAI WORKSHOP: SPONSORSHIP LEVELS

*Our region's landscape is rich in stories that provide context for the way the world looks today. Just as learning our family history can inform our sense of self, learning the stories of our region can provide the foundation for understanding our landscape, its plant and animal communities, and our place within it.*

## BE PART OF OUR STORY!

*Join us as a sponsor and support a workshop that brings together thoughtful professionals with a deep curiosity about people, places, landscapes, and communities throughout our region.*
